

## INFORMATION REGARDING RISK OF EXPOSURE TO COVID-19

2021-12-05

The OSCE Chairpersonship has been informed that, as of 5 December, two persons present at the OSCE Ministerial Council have received positive test results for Covid-19 after the meeting. Additional cases cannot be excluded. Participants may have been exposed to covid-19 during one or several of the meeting days 1-3 December.

By sending this information letter, the Chairpersonship reminds all delegates and support staff to remain vigilant for any symptoms of respiratory tract infection (sore throat, fever, cough and a general feeling of illness) during 14 days after the conclusion of the OSCE Ministerial Council.

If you have already left Sweden, please follow the rules and regulations at your current location for persons who may have been exposed. As a general rule if you have any such symptoms as listed above, you should immediately self-isolate to prevent further spread and order a test for covid-19 in accordance with your national guidelines/your country's guidelines.

---

Residents in Sweden should order a test through 1177/Alltid öppet. Please refer to the following website for information and access to testing in Sweden:

<https://www.1177.se/en/Stockholm/other-languages/other-languages/covid-19/lamna-prov-engelska/>

### **If you cannot schedule a test via the app or by telephone:**

If you don't have mobile BankID or a personal ID number (personnummer), or if you have a protected or confidential ID (skyddat id), you can contact your healthcare centre and get help from them.
